Judges Comments:

Too many wines look forced, show oxidative characters and lack fruit generosity.

While some awards show a level of sugar this has been well balanced. There were far too many examples where this was not the case.

Too many dull yeast affected wines (attenuated ferments). Many good commercial styles, but watch sugar acid balance. Gold awards outstanding.

Many wines tired and loosing fruit.

Too much oak used.

These styles would benefit from being released and consumed when younger and show some vibrancy.
